INSTITUTIONAL *Facilities*

Canstar Restorations has been one of the premier disaster restoration companies in Greater Vancouver for over 25 years. What sets us apart from the competition is customer service. Our live in-house call centre operates 24/7 with qualified staff, trained to work directly with the managers of large institutional buildings and, if necessary, immediately dispatch a professional, well equipped crew to begin restoration work right away.

Managing a large institution is only possible by following strict guidelines; well designed policies, procedures, and systems keep everything running like a well oiled machine. But what happens when an out-of-control delivery truck crashes into your lobby and ignites a small structural fire; complete with burnt walls, smoke damage, and flooding?

Your well oiled machine will stop dead in its tracks and operations will shut down.

That makes the need to plan for the unexpected—fire, flood, mold contamination, trauma, or the damage resulting from a vehicle impact—just as important as your day to day procedures. When one of these events occurs you'll need to be able to keep operating or, at the very least, be back up and running as soon as possible.

EFFICIENT, EFFECTIVE *and professional*

From the moment you call our 24/7 call centre our superbly trained, well equipped staff will respond to isolate the affected area and restore your building to working condition safely and efficiently. We provide:

- An immediate response by trained and certified technicians, bringing top of the line equipment, to quickly minimize damage and exposure.
- A thorough diagnosis of the extent of the damage to reduce the risk of exposure to all residents.
- The ability to mitigate the affected areas urgently.

When disaster strikes your building, you need to respond quickly. Any delay will cause unnecessary business interruption, additional damage to property, and even an unsafe environment—through air, water, or mold contamination—for the residents or workers of your building.

Having Canstar Restorations' number on file will guarantee that, with just one call, all of these dangers will be mitigated. Canstar will respond in an efficient, effective, and professional manner. Our team is trained to industry best standards in all areas of restoration and safety. We will have you back in business in a clean, safe environment, as quickly as possible.
