restoring your peace of mind

PROPERTY *Manager*

Canstar Restorations has been one of the premier disaster restoration companies in Greater Vancouver for over 25 years. What sets us apart from the competition is customer service. Our in-house, live call centre operates 24/7 with qualified staff, trained to quickly assess the needs of managers of properties of all sizes, from a single family residence to large complexes of hundreds of doors or more and, if necessary, immediately dispatch a professional crew to begin restoration work right away.

You already know that managing property and keeping clients and tenants happy is challenging enough. When disaster strikes, damage from water, fire, smoke, mold, or trauma to any of your buildings will add to your already heavy workload.

You need an efficient, reliable, and cost-effective resource that can get your building back in shape while balancing the needs of your clients and the other stakeholders. Good communication between the occupants, the property manager, and the restoration contractor, along with fast, quality service will be a credit to your business as well as ours. We'll take the job off your plate, keep your clients happy, and get your building back to normal before your head has time to ache.

GOOD COMMUNICATION *between all involved*

From the moment you call our 24/7 call centre our superbly trained, well equipped staff will respond to isolate the affected area and restore your building safely and efficiently. We provide:

- An immediate response by trained and certified technicians, bringing top of the line equipment, to quickly minimize damage and exposure.
- A thorough diagnosis of the extent of the damage to reduce the risk of exposure to all residents.
- The ability to mitigate the affected areas urgently.

When disaster strikes your building, you need to respond quickly. Any delay can cause unnecessary headaches, additional damage to property, and even an unsafe environment—through air, water, or mold contamination—for the residents of the building and visitors to it.

Having Canstar Restorations' number on file will guarantee that, with just one call, all of these dangers will be mitigated. Canstar will respond in an efficient, effective, and professional manner. Our team is trained to industry best standards in all areas of restoration and safety. We will restore your building to a clean, safe environment, as quickly as possible.

Quickly meet the needs of property managers
